

Raritan Public Library patrons will now be able to print 3D objects by emailing us their 3D object files.

Please read the following 3D printer policies:

- Patrons must email their 3D object .stl files to the [raritanlibrary54@gmail.com](mailto:raritanlibrary54@gmail.com) email.
- Patrons will be asked to put their name, a contact phone number, and their choice of color for the object in the email. We will email back if there are any concerns with the object not following the guidelines listed below.
- Patrons will be limited to one object a month in order to give others a chance to use the 3D printer.
- Objects must be less than 75mm x 75mm x 75mm (or 2.5in x 2.5in x 2.5in) dimensions as specified in the Tutorial videos.
  - We will resize the object to fit the appropriate constraints, but please be aware this can alter the end outcome of the object so be sure to follow the dimensions when creating.
- The printer will only be operated by trained staff.
- The Library reserves the right to refuse any 3D print request.
- Small bumps, holes or rough edges on the object may occur as part of the printing process and will not constitute a reason for the item to be reprinted by the Library.
- The Library's 3D printers will not be used to print out anything that is:
  - Prohibited by local, state, or federal law.
  - Unsafe, harmful, dangerous or poses an immediate threat to the well-being of others.
  - A functioning weapon, or part of a weapon.
  - Obscene or otherwise inappropriate for the Library environment.
  - Violates patent, copyright, trademark, or otherwise infringe upon the intellectual property of others.
- There is no fee to use the printer. Patrons will be able to use printing supplies which are available, however the Library will not purchase specific colors upon request.
- Once the object is ready, a library staff will call the number given in the email to discuss pick up details.
  - Most prints will be ready no more than 2 weeks after the initial email is received, given no additional concerns.
